This Explanatory Memorandum has been prepared by the Deed Administrators (other than for the 'Key Parties' description in section 3 in Part B and Part C which has been prepared by the proposed replacement responsible entity, Macquarie Alternative Asset Management Ltd (ACN 103 237 181) (New RE) and the proposed new manager, Macquarie Forestry Services Pty Limited (ACN 093 752 946 (Manager).

Investments in the Scheme are not deposits with, or other liabilities of the Deed Administrators, the New RE, the Manager, Macquarie Group Limited ACN 122 169 279 or any Macquarie Group Company and are subject to investment risk, including possible delays in repayment and loss of income or capital invested. Neither the Deed Administrators, the New RE, nor the Manager guarantee any particular rate of return on, or the performance of, the Scheme, nor do either of them guarantee the repayment of capital from the Scheme.

Accuracy of information

If any material information or any material amendment arises between the date of this document and the Meeting, it will be posted on the Deed Administrators' website at www.briferrier.com.au. To the extent that such information leads to the Deed Administrators withdrawing or materially amending the Settlement Proposal, the Deed Administrators will consider the options available to them to delay, adjourn or call a new meeting and submit amended materials to the Growers.

BRIEF SUMMARY

- Unfortunately, FEA Plantations Limited (Subject to Deed of Company Arrangement) Receivers Appointed) (**FEAP**), **the responsible entity of your Scheme, is insolvent.**
- The Deed Administrators, the Receivers, the FEA Group Companies and the FEA Group Companies' secured creditors (**Banks**) have agreed to a settlement proposal which will allow Growers to realise value in their investments (**Settlement Proposal**).
- The Settlement Proposal is documented in a confidential document referred to as the Implementation Deed. The passing of the resolutions set out in the attached Notice of Meeting is required in order for the Implementation Deed, and therefore the Settlement Proposal, to become operative.
- The Settlement Proposal provides for the consensual compromise and resolution of all claims between the FEA Group Companies, the Deed Administrators, the Receivers and the Banks. If the Settlement Proposal is carried out, it will put an end to all litigation presently on foot between the parties.
- FEA and FEAP's creditors, including the Growers, have already voted upon resolutions adopting Deeds of Company Arrangement entered into by FEA and FEAP to facilitate the Settlement Proposal.
- The Deed Administrators now seek the approval of Growers in the 1995 to 2001 Schemes to **three resolutions** which will give effect to the Settlement Proposal at the Scheme-level.
- The Settlement Proposal aims to realise value for Growers in the 1995 to 2001 Schemes in a number of ways. Under the Settlement Proposal, the land owned by entities in the FEA Group (**Internal Land**) will be offered for sale on the open market. Depending on the structure of the bids received:
 - Land owned by the FEA Group will be offered for sale on an unencumbered basis - that is, with land and trees offered for sale together. In this case, Growers will receive a share of the net proceeds of the sale of the Full Estate. To enable the Full Estate to be sold on this basis, amendments will need to be made to the Scheme's Constitution, detailed further in this Explanatory Memorandum. This sales process is referred to as a **One Line Sale**.
 - Alternatively, the Tasmanian Estate will be offered for sale with the 1995 to 2001 Schemes to remain in place and provided that all Conditions Precedent (detailed in Part B, section 2 of this Explanatory Memorandum) are satisfied (or waived), Macquarie Alternative Assets Management Ltd, a member of the Macquarie Group, will become the New Responsible entity (**New RE**) and Macquarie Forestry Services Pty Ltd will become the new **Manager** of your Scheme. It is expected that the Scheme will continue through to harvest, with returns being made to Growers upon harvest. To enable the Tasmanian Estate to be sold on this basis, the Scheme will need to amend its Constitution and related Project Documents to provide for more commercially practical lease and management arrangements. These amendments are detailed further in this Explanatory Memorandum. This sales process is referred to as the **MIS Transition**. The Remaining Estate will be sold on an unencumbered basis.
- Whether the Internal Land is sold subject to the One Line Sale or subject to the MIS Transition will depend on the structure of the bids received. In light of this, the Receivers will be obliged to determine whether the sale should proceed as a One Line Sale or an MIS Transition. This assumes all proposed resolutions are passed. In making the determination, the Receivers will work closely with a Sales Advisor appointed jointly by the Deed Administrators and the Receivers. The Receivers will have regard to their statutory duty to obtain the best price reasonably obtainable and will carefully assess the bids made by all potential purchasers. In either scenario, the Deed Administrators anticipate that returns will be made to Growers.
- The Settlement Proposal does not impact on the ability of the Deed Administrators, the current RE, or the new RE (if one is appointed) to continue to harvest timber located on External Land. The realisation of such timber will be comprised within the Grower Proceeds. In order for the Settlement Proposal to be implemented, **Growers must vote in favour of all resolutions.**
- **The Deed Administrators consider that the Settlement Proposal provides a fair and practical outcome for all Growers and recommend that you vote in favour of all resolutions.**
- If all resolutions are not carried, then the Settlement Proposal is likely to fail and Growers are unlikely to receive any return from their Scheme.
- If the first two resolutions pass and the third fails, then there is some prospect that certain aspects of the Settlement Proposal can be preserved.

YOUR VOTE IS CRUCIAL

- The meeting will take place at 8.50am on 17 October 2013 at The Grand Chancellor Hotel, 29 Cameron Street, Launceston, Tasmania 7250.
- **Your vote is crucial for this Settlement Proposal to succeed.**
- To succeed:
 - at least 50% of eligible woodlots (represented at the meeting either in person or by proxy) must vote “YES” to Resolution 1, that is to approve the Settlement Proposal.
 - at least 75% of eligible woodlots (represented at the meeting either in person or by proxy) must vote “YES” to Resolution 2, that is to approve amendments to the Constitution of the Scheme.
 - at least 50% of all eligible woodlots (not just those woodlots represented at the meeting) must vote “YES” to Resolution 3, to approve the replacement of FEAP with the New RE and other consequential amendments in the event that the MIS Transition becomes operative, and approving a deferred winding up arrangement and other consequential changes in the event that the One Line Sale becomes operative. Given that the threshold for passing this resolution refers to all eligible woodlots (not just those represented at the meeting) a failure to vote is equivalent to a “no” vote.
- Your Proxy must be received no later than 8:00am on 15 October 2013.

Settlement Proposal voting instructions

- To support the proposal you should:
 - Complete the personalised Proxy Form attached to this Explanatory Memorandum:
 - **Vote YES** to all resolutions
 - Return the Proxy Form to the specified mail or email address, by fax or by hand as specified on Page 1 of the Proxy Form. It must be received by no later than **8:00am on 15 October 2013**.
- Alternatively, you may attend the meeting on **17 October 2013** and vote in person. If you plan on attending the meeting in person, please arrive 30 minutes before the meeting commences.
- **From time to time, further important information may become available – please visit our website to register your details with us at www.briferrier.com.au so that you can be provided electronic updates.**

Additional information

The insolvency of the FEA Group has placed the Scheme in a difficult situation. You should make your own decision weighing up the relative commercial prospects of the options put forward to you and taking into account all the risks. We encourage you to read this Explanatory Memorandum in full before making your decision.

Settlement Proposal – Key Facts at a Glance

Settlement Proposal

The Settlement Proposal aims to provide a **return to Growers** by making distributions to Growers under a One Line Sale or by allowing the Scheme to be continued through to harvest by replacing the insolvent current RE with a New RE and Manager under the MIS Transition.

Unfortunately your current RE is insolvent. The Deed Administrators of FEAP and the Receivers and Banks have for a long time period disagreed on whether the Growers are entitled to remain in possession of their trees. The Settlement Proposal aims to put an end to this uncertainty.

The Settlement Proposal allows the Deed Administrators and the Receivers to respond to the market by offering the Internal Land for sale on an unencumbered (One Line Sale) or encumbered (MIS Transition) basis at a prospective purchaser's election. It is envisaged that this flexibility will ensure the optimal result from the sales process is achieved.

In determining whether to accept a bid on the basis of the One Line Sale or the MIS Transition, the Receivers will:

- work closely with the Sales Advisor appointed jointly by the Deed Administrators and the Receivers;
- carefully assess the bids made by all potential purchasers; and
- have regard to their statutory duty to obtain the best price reasonably obtainable.

Whichever sales process is ultimately pursued under the Settlement Proposal, the Deed Administrators anticipate that a distribution will be made to Growers. What that distribution will be, the timing of any distribution and any payment obligation of Growers will be very different depending on whether the One Line Sale or MIS Transition occurs.

We believe that the Settlement Proposal **significantly improves the prospect of a return to Growers compared to the alternative, namely lengthy and expensive litigation, with an uncertain outcome.**

The implementation of the Settlement Proposal is dependent on each of the 1995 to 2001 Schemes passing similar resolutions and some additional requirements in relation to other FEA group entities and associated schemes.

One Line Sale Process

Key Stages

All FEA Group owned Land and Trees will be offered for sale on an unencumbered basis (i.e. a buyer will buy the Internal Land and the trees without Scheme encumbrances).

Under the One Line Sale, your Scheme will receive a share of the sum of the net proceeds of the sale of the Full Estate and the net proceeds of the sale of Forest Produce derived from the harvest of the trees on External Land after deduction of rental costs for that land (**Grower Proceeds**). The order of payments (referred to as a cascade) of the Grower Proceeds will be as follows:

1. Deed Administrators' fees and expenses including the proportion of any fees due to Macquarie attributable to the Scheme by reference to Clause 5.11 of the Constitution;
2. Refund of Voluntary Contributions paid by Growers plus a premium as compensation for payment;
3. Refund of Compulsory Contributions paid by Growers plus a premium as compensation for early payment(excluding insurance premiums paid by Growers);
4. Payment to "2002-2009 Pool" to refund a share of the Voluntary Contributions paid by Growers in the 2002 to 2009 Schemes;
5. Refund of insurance premiums paid by Growers for the 12 months beginning 1 October 2013;
6. Proportionate returns to Growers in your Scheme on a woodlot basis

The cascade has been determined to ensure Growers who have continued to fund the Schemes since the appointment of the Deed Administrators receive the return of those funds in priority to general Grower returns.

The premium on the refund of compulsory and voluntary contributions will be 20% for payments made in the FY11 year, 12% for payments made in the FY12 year and 6% for payments made in the FY13 year. All payments received for the purpose of the premium calculation will be assumed to have been received on the first of July for each of the respective years.

The estimated return per woodlot to all Growers in your Scheme from the One Line Sale is summarised as follows:

Estimated return to Growers per woodlot under One Line Sale

| Low (\$/woodlot) | High (\$/woodlot) |
|------------------|-------------------|
| \$ 512.12 | \$1,397.56 |

Estimated returns include proceeds of harvest of timber on externally leased land and are based on volumes as per Woodstock Model and current assessment of the short to mid term markets.

Estimated returns exclude the repayment of voluntary and compulsory contributions, and premiums on contributions received by FEAP since 14 April 2010 (excluding pre-appointment debts and Insurance).

Notwithstanding the proposed area reduction for each woodlot entitlement, each Grower’s woodlots will remain the same in number. All Growers in each of the 1995 to 2001 Schemes will be entitled to participate proportionately in the Grower Proceeds generated by the One Line Sale of the Full Estate, and from the harvesting of trees on the External Land. This will be the case regardless of where your existing woodlot is located, including if your previous woodlot is located on the land that is being discontinued.

Once the Grower Proceeds have been paid to Growers the Scheme will be wound up. The Deed Administrators will be responsible for conducting the winding up of the Scheme.

MIS Transition Process

Key Terms

The Tasmanian Estate will be offered for sale on an encumbered basis. If the resolutions in the attached Notice of Meeting are passed, then provided that all Conditions Precedent (detailed in Part B, section 2 of this Explanatory Memorandum) are satisfied (or waived), the Tasmanian Estate will be sold with the Schemes in place and with the current RE, FEAP, to be replaced by Macquarie Alternative Assets Management Ltd (**New RE**), an entity within the Macquarie Group. Macquarie Forestry Services Pty Ltd will become the **Manager** of the Scheme.

The MIS Transition seeks to ensure that the FEA estate will be positioned for a ‘clean start’.

Both the New RE and Manager have experience with forestry managed investment schemes.

The Schemes will be operated on both FEA Group owned land (to be sold) and land leased from external third parties (External Land) with the intention of the trees being managed through to harvest and returns upon harvest being distributed to Growers.

Only the Tasmanian Estate and External Land (excluding some identified sub-economic properties) will continue in the Schemes. The Scheme documents need significant amendments, details of which are set out in this Explanatory Memorandum.

All Growers will participate in the proceeds generated by the Scheme, regardless of where their existing Woodlot is located. Growers with woodlots in New South Wales, Queensland or the discontinued Tasmanian properties will remain Growers of the Scheme and will be entitled to a proportionate interest in the harvest proceeds. The Scheme will continue using Tasmanian properties comprising the Continued Area.

The size of the Continued Area may be further reduced as determined by the Deed Administrators, the current RE or the New RE, to reflect the harvested properties, or any properties from time to time,

that may be determined to be sub-economic. The Deed Administrators, the current RE or the New RE may reduce the Continued Area notwithstanding that such properties may be economic, where woodlots have been cancelled to ensure that each Grower's woodlot does not represent proportionately more than one third of a hectare of the Continued Area (or a lesser amount to reflect properties harvested).

| Original Hectares | Continuing Hectares | Proportionate Hectares Continuing | Original Woodlot Size (ha) | Initial Adjusted Woodlot Size (ha) |
|--------------------------|----------------------------|--|-----------------------------------|---|
| 204.40 | 204.40 | 1.00 | 0.33 | 0.33 |

* Note – Grower woodlot entitlement numbers will remain the same notwithstanding the proposed reduction in woodlot size.

The cascade for payments out of the harvest proceeds under this approach is as follows:

1. Payment of harvest costs and fees;
2. Payment of the New RE's fees;
3. Payment of outstanding Scheme expenses including any outstanding Deed Administrators' fees and disbursements and/or repayment of any Macquarie facility;
4. Refund of Voluntary Contributions paid by Growers plus a premium as compensation for payment;
5. Payment of a fee fixed sum to Forest Enterprises Australia Ltd (Receivers and Managers Appointed) (subject to Deed of Company Arrangement) – Pool B, being the repayment amounts determined by the Deed Administrators for the share of the Scheme expenses paid by Grower contributions from other Schemes;
6. Distributions to Growers.

Any payments to be made under the cascade set out above will necessarily be limited by the extent to which proceeds of realisation of Scheme assets are available to satisfy them.

The estimated return per woodlot to all Growers in your Scheme from the MIS Transition Process is summarised as follows:

Estimated return to Growers per woodlot under MIS Transition

| Low (\$/woodlot) | High (\$/woodlot) |
|-------------------------|--------------------------|
| \$2,254.80 | \$3,914.98 |

Estimated returns exclude the repayment of voluntary and compulsory contributions, and premiums on contributions received by FEAP since 14 April 2010 (excluding pre-appointment debts and Insurance).

Estimated returns include proceeds of harvest of timber on externally leased land and are based on volumes as per Woodstock Model and current assessment of the short to mid term markets.

To facilitate the MIS Transition and enable the New RE to put forward a more attractive MIS Transition fee structure, the Receivers have agreed to release certain rental claims to which they may otherwise have been entitled.

Growers will be required to make payments to the New RE. The fees payable are (exclusive of GST):

| Fee Description | Fee Amount | Basis for Payment | Adjusted for inflation |
|-------------------------------------|-------------------|--------------------------|-------------------------------|
| Initial Contribution | \$ 100.00 | Woodlot | No |
| Annual Management Fee | \$ 50.00 | Woodlot | Yes |
| Ongoing Members – Annual Lease Fees | \$ 100.00 | Woodlot | Yes |
| Prepaid Members – Annual Lease Fees | \$ 89.10 | Woodlot | Yes |

| | | | |
|----------------------|-----------|--|-----|
| Fixed Management Fee | \$ 900.00 | per hectare or part thereof of land that is harvested and sold, or subject to a standing timber sale | Yes |
| Sales Proceeds Fee | 12.50% | In the event of a harvest and sale: gross sales proceeds, less sales costs and the Fixed Management Fee. In the event of a standing timber sale, the sales proceeds less the sales costs and the Fixed Management Fee | No |

Where Prepaid Members are Members who paid a once only rental payment on entry into their original Lease agreement (along with any annual fee if applicable), and Ongoing Members are Members who did not pay a once only rental payment, but were obliged to make annual rental payments of a consistent base amount (adjusted for inflation).

The New RE has discretion to charge a lesser amount, reduce any future fees receivable. The New RE has expressed an intention to exercise such discretion in relation to the Annual Management Fee and Annual Lease Fees, where each Grower's woodlot corresponds proportionally to substantially less than one third of a hectare of the Continued Area. The New RE has expressed an intention to exercise the discretion to charge a lesser amount where the Continued Area is reduced due to harvesting, and the discretion to credit certain proportions of amounts received where the Continued Area is reduced in other circumstances.

All Growers will need to make all outstanding contributions to participate going forward. A Grower's liability is in accordance with the table above, and the New RE has no obligation to exercise any discretion to reduce fees receivable by it. Those who do not meet all of their payment obligations may be forfeited out of the Schemes or have their interests assigned and receive no return.

The New RE will charge you under the revised fee arrangements from the period from its appointment. Please note that you remain liable for any fees that were due and payable prior to the New RE's appointment, and no refund or credit will be available to you for any overlapping charge periods.

Conditions Precedent

There are a number of Conditions Precedent that must be satisfied (or waived) before the New RE will unconditionally consent to become the Scheme's new Responsible Entity and implement the MIS Transition, including the acceptance by the Receivers of a bid for the purchase of the Internal Land subject to the MIS Transition. The Conditions Precedent are set out in Part B, section 2 of this Explanatory Memorandum.

Risks

The MIS Transition will resolve the current difficulties of the Scheme that result from the insolvency of the FEA Group. There are issues which will remain and new risks associated with the MIS Transition. This document provides you with information about the significant risks of this proposal.

If the Settlement Proposal fails

Current Situation

Your Scheme is currently under-funded and operated by an **insolvent RE** to which Deed Administrators and Receivers have been appointed.

As Growers would be aware, there are Supreme Court proceedings presently on foot in which the Receivers have sought declarations from the Court that your Grower sub-leases and other associated interests have been extinguished. If successful, this would allow the Receivers to sell the land and the trees for the principal benefit of the Banks. The Deed Administrators have defended the proceedings and have sought relief against forfeiture of the leases, arguing that the Court should allow FEAP and the Schemes to continue to occupy the Internal Land. Whether the Receivers are entitled to terminate, or indeed have already terminated, the leases upon which the Schemes have been established remains an issue in dispute.

Proceedings were issued in the current form in September 2011 and a hearing date has not yet been set. The Deed Administrators consider that FEAP and the Growers have a strong case. However the Deed Administrators and by extension FEAP and the Growers face a number of significant challenges in this litigation, including:

- Meeting the on-going costs of funding the litigation;
- Making adequate provision for any adverse costs order should the Deed Administrators not succeed;
- The uncertain timeframe, including the possibility that one or both of the parties could appeal any decision to a higher court;
- The ability for Schemes to fund on-going rent payments if the Court was to determine that a specific lease applied and that certain rent was therefore due and payable.
- Assuming the litigation is successful the need to secure the appointment of a substitute solvent RE as FEAP would not be able to continue in that role.

In late 2012, the Banks, Receivers and Deed Administrators agreed to mediate the matters in dispute between them in a bid to resolve the disputes and enable the Schemes' assets to be realised for the benefit of both Creditors and Growers. Given the complexity of the issues, the mediation commenced in late November 2012 and continued over a number of months. All parties participated in these discussions in good faith. It is a term of the mediation, as is usual with mediations, that what is said is confidential and the parties do not discuss what has occurred in them: this is reflected in what is called by lawyers "Mediation Privilege".

Following the mediation, the Deed Administrators, the Receivers and the Banks have now entered into an Implementation Deed which provides a framework for implementation of this Settlement Proposal. It is now envisaged that a return will be made to Growers in your Scheme either through a share in the net proceeds of a One Line Sale or through an entitlement to the harvest of your trees under the MIS Transition.

If the Settlement Proposal fails, the Growers will remain in the position they are presently in - that is, with limited funding for continued litigation; with the strong prospect of the Schemes being wound up; with little to no certainty about the value (if any) of their trees being recovered and with little prospect of any return on their investments.

It is of course impossible to determine with certainty the outcome of the Settlement Proposal. We believe, however, that **the Settlement Proposal is demonstrably preferable to Growers** over maintaining the status quo.

The Resolutions

The Notice of Meeting gives notice of three Resolutions necessary for the Settlement Proposal to be implemented (**Resolutions**).

| Summary of Resolution | | Type of Resolution |

| Resolution 1 | <p>"That the proposal set out in the Explanatory Memorandum, under which one of the following will occur:</p> <p>(a) the Scheme will continue in a restructured form; or</p> <p>(b) the land owned by TP, FEA or FEAC and used in the Scheme will be sold unencumbered,</p> <p>be approved."</p> | Ordinary ¹ |

¹ Passed by 50% of votes cast by Growers at the meeting (in person or by proxy).

² Passed by at least 75% of votes cast by Growers at the meeting (in person or by proxy).

| Summary of Resolution | Type of Resolution |
|---|-----------------------------------|
| <p>marked in the version of the Constitution annexed to the Notice of Meeting and marked for identification with the letter A”</p> | |
| <p>Resolution 3 "That:</p> <p>(a) subject to and conditional upon:</p> <p style="padding-left: 40px;">(i) completion of a disposal of land comprised in the Tasmanian Estate with such land being disposed of subject to MIS Encumbrances (MIS Disposal); and</p> <p style="padding-left: 40px;">(ii) the conditions precedent referred to in the attached schedule 1 being satisfied or waived:</p> <p style="padding-left: 40px;">then</p> <p style="padding-left: 40px;">(iii) The Responsible Entity be directed to execute on behalf of members any document required to novate any scheme documents to the Responsible Entity from another entity in the FEA Group; and</p> <p style="padding-left: 40px;">(iv) FEAP retire as Responsible Entity of the Scheme and Macquarie Alternative Asset Management Ltd be appointed as Responsible Entity of the Scheme in its stead; or</p> <p>(b) if there is no MIS Disposal on or before 31 March 2014:</p> <p style="padding-left: 40px;">(i) the Scheme be wound up pursuant to Section 601NB of the Corporations Act and Section 5.1(a) of the Constitution together with any order which the Court may seem fit to make pursuant to Section 601NF(2) of the Corporations Act; and</p> <p style="padding-left: 40px;">(ii) Brian Raymond Silvia and Peter Paul Krejci be appointed to take responsibility for ensuring that the Scheme is wound up in accordance with its Constitution; and</p> <p style="padding-left: 40px;">(iii) the winding up be postponed pursuant to Clause 5.3 of the Constitution of the Scheme for such a period as the Responsible Entity may determine is in the interests of members of the Scheme; and</p> <p>the members authorize and direct the Responsible Entity (and any other person authorized by the Responsible Entity) as their attorney to execute on their behalf all documents required to acknowledge termination of any leases held or interests in forestry rights held by or for the benefits of any members, or to assign, novate, surrender or otherwise deal with such leases or interests."</p> | <p>Extraordinary ³</p> |

There are a number of Conditions Precedent that must be satisfied (or waived) before the New RE will consent unconditionally to become the Scheme’s New Responsible entity under the MIS Transition process. If these Conditions Precedent are not satisfied (or waived) and the Implementation Deed is operative, the Land will be sold subject to a One Line Sale.

³ Passed by at least 50% of the total votes that may be cast by Growers entitled to vote (including Growers who are not present in person or by proxy).

Part A – Allowing the Settlement Proposal to Proceed

Resolution 1 - To consider and if thought fit pass the following resolution as an ordinary resolution:

"That the proposal set out in the Explanatory Memorandum, under which one of the following will occur:

- (a) the Scheme will continue in a restructured form; or*
- (b) the land owned by TP, FEA or FEAC and used in the Scheme will be sold unencumbered, be approved."*

This resolution provides for general approval of the Settlement Proposal.

Part B – Summary of Amendments to Scheme Constitution and Project Agreements

Resolution 2 - To consider and, if thought fit, pass the following resolution as a special resolution:

"That the Constitution of the Scheme as registered with ASIC on 19 June 2000 (and subsequently varied) be amended on the Operative Date (as that term is defined in the Explanatory Memorandum) as marked in the version of the Constitution annexed to the Notice of Meeting and marked for identification with the letter A"

The Scheme is governed by a legal document known as the Constitution and each Grower has entered into a Lease Agreement and a Management Agreement with the Current RE (or its parent company, FEA), which also govern the way the Scheme has operated.

In order to implement the Settlement Proposal and to provide for amendments to the terms on which your Scheme may continue to operate (if the MIS Transition occurs), significant amendments to the terms of the Constitution, Lease Agreement and Management Agreement are required.

The Responsible Entity will also need to enter into a number of new arrangements in connection with the Scheme.

As some of the amendments to the Constitution and Project Agreements are adverse to certain Growers' rights, the amendments require the approval of Growers by special resolution. Accordingly, in Resolution 2, Growers are asked to approve changes to the Constitution (including changes to the Lease Agreement and Management Agreement and the entering into of certain new agreements).

Full details of the proposed amendments are set out in an Amending Deed to be tabled at the Meeting. Copies of the Amending Deed will be available from our website www.briferrier.com.au.

This section provides a summary of the key amendments to the Constitution, including key amendments to the Lease Agreement and Management Agreement and a summary of the Forestry Management and Off-take Agreement that the New RE will enter into if the MIS Transition occurs.

KEY AMENDMENTS TO THE SCHEME CONSTITUTION

| Current Constitution | Proposed Amendments | Timing of change |
|--|---|---|
| Amendments to give effect to the Settlement Proposal | | |
| <p>There is no equivalent provision in the current Constitution.</p> | <p>In order to give effect to the Settlement Proposal outlined in this Explanatory Memorandum, a number of amendments will be made to the Constitution. Key amendments relating to the sale of the Land are summarised below.</p> <p>Power to give effect to the Settlement Proposal</p> <p>The Constitution will be amended to provide for the:</p> <ul style="list-style-type: none"> grant of a new Power of Attorney by Growers in favour of the Responsible Entity to enable the Responsible Entity to take certain steps and sign certain documents on behalf of Growers to give effect to the Settlement Proposal (see the section "Power of Attorney" below); agreement of the Growers that the Settlement Proposal is in the best interests of Growers and is most likely to realise the best outcome for Growers as a whole compared with the uncertainty, cost and delay in proceeding, or continuing, with legal proceedings in connection with the Scheme; agreement of the Growers that the Receivers have the discretion as to whether to proceed with the One-Line Sale or the MIS Transition; agreement of the Growers that once the Receivers determine whether to proceed with the One-Line Sale or the MIS Transition, the Responsible Entity and the Growers will be bound to proceed with the chosen option; Growers' authorisation, consent and direction for the Responsible Entity to take such action and steps, execute or issue such documents as are in the Responsible Entity's reasonable opinion necessary or desirable to give effect to the Settlement Proposal, perform its obligations under such documents and to implement either the MIS Transition or One-Line Sale | <p>These amendments will take effect from the Operative Date.</p> |

This is being done to ensure that the MIS Transition can occur and accordingly will only be effective on completion of the MIS Transition.</p> <p>Release of claims</p> <p>The amendments to the Constitution provide that:</p> <ul style="list-style-type: none"> the Growers have agreed to settle and release any claims that the Growers may have against the FEA Group (except for FEAP), the Receivers, Australia and New Zealand Banking Group Limited and Commonwealth Bank of Australia in connection with the Scheme Land and the Implementation Deed; the Responsible Entity may execute and deliver as agent or attorney on behalf of each Grower any documents necessary or desirable for that settlement and release; and Growers acknowledge that the Responsible Entity has agreed to settle and has released any claims that the Responsible Entity may have against the FEA Group, the Receivers, Australia and New Zealand Banking Group Limited and Commonwealth Bank of Australia in connection with the Scheme Land and the Implementation Deed. <p>Payments to "Discontinued Schemes"</p> <p>As part of the Settlement Proposal, each Scheme that continues will pay an amount to the "Discontinued Schemes".</p> <p>Accordingly, the Constitution will be amended to provide that, if MAAML is appointed as the New RE, the Responsible Entity must, out of Scheme assets, pay to "Forest Enterprises Australia Ltd (Receivers and Managers appointed)(Subject to Deed of Company Arrangement) – Pool B", as notified to the Responsible Entity by the Deed Administrators, the greater of \$421,782.73 or such amount representing the proportion of any fees due to Macquarie attributable to the Scheme by reference to Clause 5.11 of the</p> | |

Voluntary Contribution Repayment

| | | |
|--|--|--|
| <p>There is no equivalent provision in the current Constitution.</p> | <p>The Constitution will be amended to provide that, if MAAML is appointed as the New RE, the Responsible Entity must, after payment of the fees and expenses of the Responsible Entity including the remuneration and expenses of the Deed Administrators, out of, and only to the extent of, Scheme assets pay to Growers who made a “voluntary contribution” with respect to the Scheme during the period 10 April 2010 to 31 October 2013, a “voluntary contribution repayment” equal to the amount of any voluntary contribution made by the Grower, plus 20%. This payment will be made out of any amounts paid to the Responsible Entity by the Manager in respect of sale proceeds pursuant to the Forestry Management and Off-Take Agreement (and other amounts paid to the Responsible Entity by any other off-taker in connection with the Scheme).</p> <p>The Constitution will provide that any voluntary contribution received by the Responsible Entity after 31 October 2013 will, after payment of the fees and expenses of the Responsible Entity including the remuneration and expenses of the Deed Administrators, be credited by the Responsible Entity against any existing arrears of rent or management fees. If there are no such arrears, any contribution is to be treated as a prepayment of management fees due subsequent to the date of MAAML’s appointment as New RE.</p> | <p>These amendments will take effect from the Operative Date. However, some of these amendments are only relevant if MAAML becomes the New RE.</p> |
| | <p>The Constitution will also provide that if MAAML is not appointed as New RE by 31 March 2014, then the Responsible Entity shall as soon as practicable repay voluntary contributions to Growers, together with a premium of 20% if payments were made in calendar year 2010, 12% if payments were made in calendar year 2011 and 6% if payments were made in calendar year 2012. Such payments will be made out of the Proceeds Fund (see “Proceeds Fund” below).</p> | |

Amendments to Leases of Woodlots and Reclassification of Scheme Interests

| | | |
|---|--|---|
| <p>Growers are allocated Woodlots. A Woodlot represents a parcel of land in respect of which a forestry right is leased by the Responsible Entity (or its parent company, FEA) to the Grower pursuant to a Lease Agreement.</p> | <p>It is proposed that the Constitution be amended so that the Responsible Entity may, in its absolute discretion, classify all of the Scheme Land into the categories of “Excluded Area” or “Continued Area”.</p> <p>The Scheme will continue in relation to the Land on the Continued Area, but not the Land on the Excluded Area.</p> <p>Each Grower that held a Woodlot that has been classified as part of the Excluded Area will have its existing Lease Agreement amended to exclude from the lease those Woodlots classified as part of the Excluded Area.</p> <p>As a result of this reorganisation, the Constitution will be amended so that, instead of Grower’s interests in the Scheme being referable to their Woodlots, they will hold a proportionate interest in the entire Scheme.</p> | <p>These amendments will take effect from the Operative Date.</p> |

|----------------------|--|------------------|
| | <p>In this regard, further amendments to the Constitution will provide that all Growers (whether or not their Woodlots form part of the Excluded Area or Continued Area) will have a proportional share in the Proceeds Fund following harvest (see the section “Proceeds Fund” below).</p> <p>The Constitution will provide the Responsible Entity with powers (including a power of attorney granted by each Grower) to surrender or terminate any leases of Land relating to the Excluded Area.</p> <p>The Responsible Entity will also be granted the power to:</p> <ul style="list-style-type: none"> • re-classify Scheme Land from the Continued Area to the Excluded Area; • reduce the size of the Continued Area for any reason; and • adjust the size of each Interest in the Scheme so that it represents an equal proportion of Continued Area. If the Continued Area is adjusted under the Constitution, the Responsible Entity will also adjust the size of each Interest in the Scheme so that at all times each Interest represents an equal proportion of Continued Area. <p>The Responsible Entity will also have additional powers to deal with any area of Continued Area that:</p> <ul style="list-style-type: none"> • is wholly or partially destroyed or damaged to an extent that the Responsible Entity determines that there is unlikely to be any viable trees on that Land; or • the Responsible Entity determines, in its absolute discretion, would be uneconomic for the Scheme as a whole to continue maintaining the trees on to harvest, <p>including the power to sell those areas of Land or take whatever action it considers necessary or desirable to ensure that each Grower retains its proportional interest in the Scheme.</p> | |

Changes to fees and other amounts payable by Growers

| | | |
|---|---|---|
| <p>Under the existing Constitution and Project Agreements, the Responsible Entity is entitled to be paid the fees set out in the Management Agreement and Lease Agreement.</p> <p>Details of these fees are set out in the summaries of the Lease Agreement and management Agreement below.</p> <p>The Responsible Entity is also entitled to an annual fee of \$1000 (increased by CPI each year since 1995).</p> <p>The Responsible Entity is only entitled to fees for the proper performance of its duties.</p> | <p>Changes to fees</p> <p>The fees payable by Growers under the Management Agreement and Lease Agreement will be changed - for details see the summaries of changes to those agreements set out following the summary of Constitution amendments.</p> <p><u>It is important that Growers read these sections to understand the changes in fee structure that will apply if the Resolutions are passed. Please note, the Grower’s obligations to pay any amounts to the Manager during or in respect of the period up to the Appointment Date or the Manager’s rights in respect of such payments under the Constitution and Project Agreement are not affected by the change in fees payable on and from the Appointment Date, nor is the Grower entitled to any credit or offset in relation to any overlapping charge periods.</u></p> <p>The Responsible Entity will also be entitled to an insurance administration fee and an insurance event management fee – for details see the section “Insurance and insurance Fund” below.</p> <p>Other provisions relating to fees</p> <p>The Constitution will be amended to provide for the following in connection with fees:</p> <ul style="list-style-type: none"> • the Responsible Entity is entitled to all fees that are received up to the time of its removal, or the time of termination of the Scheme; • all fees accrued and/or due after the date of MAAML's appointment as Responsible Entity must continue to be paid to MAAML as New RE - this includes any fees that were payable to the Responsible Entity before MAAML's appointment but which were not as yet paid at the time of MAAML's appointment; • the Responsible Entity has a discretion to allocate, as it sees fit (but | <p>These amendments will take effect from the Operative Date.</p> <p>Some of the individual fee changes only occur if MAAML is appointed as New RE. | <p>The Constitution will be amended to include a direction by Growers for the Responsible Entity to enter into the Forestry Management and Off-Take Agreement with the Manager (Macquarie Forestry Services Pty Limited). | <p>Fees will be payable to the Manager under this agreement.</p> | | |
| <p>Growers should read the summary of the Forestry Management and Off-Take Agreement set out below following the summary of Constitution amendments.</p> | | |
| <p>Reimbursement of expenses</p> | | |
| <p>The Constitution provides that all expenses reasonably and properly incurred by the Responsible Entity in connection with the Scheme or in performing its duties or obligations under the Constitution are payable or reimbursable out of the Scheme assets.</p> <p>The Constitution then provides for specific examples of reimbursable expenditure.</p> | <p>The Constitution will be amended to provide that all expenses, costs and other amounts incurred or paid by the Responsible Entity in relation to the proper performance of its duties in respect of the Scheme will payable or reimbursable out of Scheme assets.</p> <p>The Responsible Entity will be entitled to be paid interest on any reimbursable expenses at a rate of 14.9% per annum (calculated daily) from the date that the expense is paid or incurred by the Responsible Entity to the date that it is reimbursed from Scheme assets.</p> <p>The list of specific examples of reimbursable expenses will also be amended to include expenses relating to the following:</p> <ul style="list-style-type: none"> • all rental and other amounts payable under any Project Agreement or any lease or licence in respect of or relating to Scheme Land; • any interest or other costs of borrowing for the Scheme; • termination and winding up of the Scheme; • all legal and litigation costs incurred in dealing with any legal action that relates to the Scheme including relating to the actions of any prior Responsible Entity • costs and liabilities, including but not limited to fees in respect of any consultant, adviser, specialist, accountant, lawyer or other professional adviser, whether incurred by the Responsible Entity, the Manager or third parties, associated with the development of the Settlement Proposal and the costs, expenses and disbursements incurred by the Responsible Entity, the Manager and their related bodies corporate associated with the Settlement Proposal; • the payment of any amounts to the Manager pursuant to the Forestry Management and Off-Take Agreement; • the payment of any amounts to any party pursuant to any other off-take agreement; • any amount payable by the Responsible Entity to any former Responsible Entity (or any administrator, receiver, liquidator, manager or controller of a former Responsible Entity) or any other person in connection with the Scheme, the Settlement Proposal or those responsible entities' appointment as Responsible Entity, including under any deed of company arrangement, implementation agreement or other | <p>These amendments will take effect from the Operative Date.</p> |

| <p>Deductions in connection with fees and expenses</p> | | |
| <p>There is no equivalent provision in the current Constitution.</p> | <p>The amended Constitution will provide that the Responsible Entity may in its discretion (in reimbursing itself for expenses or in relation to any other amount owed to it by a Grower, such as a fee), deduct from any amounts payable to a Grower:</p> <ul style="list-style-type: none"> any fee payable in respect of the Grower; any unpaid fees or other amounts owing to the Responsible Entity under a Project Agreement; any reimbursement for any tax, withholding tax or duty required by law to be deducted (and Growers indemnify the Responsible Entity for such taxes); or any other unpaid amount that the Responsible Entity is entitled to be reimbursed for. <p>The deduction may be made at any time. Only amounts owed by the relevant Grower (or the Grower's proportion of any amount to be reimbursed) will be deducted from amounts payable to that Grower.</p> <p>The Constitution will note, for the avoidance of doubt, that Growers remain liable for any shortfall following such a deduction.</p> | <p>These amendments will take effect from the Operative Date.</p> |
| <p>Defaults by Growers</p> | | |
| <p>The existing Constitution provides that a Grower is in default when any amount due by the Grower remains unpaid pursuant to the Management Agreement or Lease Agreement. The Constitution then provides a procedure for dealing with defaults, including an ability for the Responsible Entity to:</p> <ul style="list-style-type: none"> take legal proceedings for the recovery of the amount in default; retain or appropriate any monies held in trust for the Grower on account of the amount in default; give notice to the Grower that in the event that payment remains outstanding for a period of thirty days from the date of the notice the | <p>The amendments to the Constitution will provide for a new regime in the event that a Grower is in default of any of its obligations.</p> <p>A summary of the default regime is set out below. To the extent that none of these parties purchase the interests, they must be offered to third parties.</p> <p>Grower remains liable</p> <p>If there is any shortfall between the amounts raised from the assignment of the Grower's Interests and the amounts owing by the Grower, the Grower will remain liable, and indemnifies the Responsible Entity, for that shortfall. | Proceeds Fund | | |
| <p>Currently, the Constitution provides for the establishment of the "Proceeds Fund" by a custodian. The Responsible Entity must deposit into the Proceeds Fund all proceeds from harvesting of timber, the proceeds of any insurance policy received in substitution for the proceeds of harvesting and any other profit arising from the conduct of a tree farming operation.</p> <p>A deduction is then made from the Proceeds Fund for all reasonable costs and disbursements incurred in the harvesting, marketing and sale of the timber and the Responsible Entity's marketing fee.</p> <p>Each Grower is entitled to a distribution from the Proceeds Fund (net of deductions) pro rata according to the ratio that the Growers' Woodlots bear to the total Woodlots in the Scheme. Prior to distribution, the Responsible Entity may deduct from any Grower's notional distribution any lease payments or management fees due and unpaid with 10% per annum interest payable from the date due and any other amounts due and unpaid by the Grower.</p> | <p>The amended Constitution will retain the concept of a Proceeds Fund, into which all income from the Scheme will be paid. However, there is no longer a requirement for the Proceeds Fund to be held by a custodian. It may instead be held by the Responsible Entity on trust for Growers.</p> <p>The Constitution will provide that, as at 30 June in each year, each Grower will have a vested and indefeasible interest in its proportion of the Proceeds Fund (if not already distributed).</p> <p>A Grower's interest in the Proceeds Fund will be the same proportion that the Grower's Interests in the Scheme bears to all Growers' Interests in the Scheme (not taking into account the Insurance Fund).</p> <p>Similar to the current Constitution, the amended Constitution will provide that any amounts owing by a Grower (such as unpaid fees and expenses, interest and other charges) will be deducted from that Grower's proportion of the Proceeds Fund, prior to distribution to the Grower.</p> <p>Each Grower will then be entitled to a distribution from the Proceeds Fund in proportion to its interest in the Proceeds Fund.</p> <p>If a One-Line Sale occurs, the settlement amounts received from that process will be paid into the Proceeds Fund.</p> | <p>These amendments will take effect from the Operative Date.</p> |

Growers may accept such an offer. If a Grower accepts insurance (an Insured Grower), they must pay the cost and expense of the insurance to the New RE along with an Insurance Administration Fee. The Insurance Administration Fee will be equal to 10% (plus GST) of the cost and expense of the insurance policy.</p> <p>Please note, all proceeds in respect of a successful claim against an insurance policy (where an individual Grower, rather than the responsible entity, has paid the insurance premium) will be paid by the insurance company to the responsible entity who will then pay it into an Insurance Fund. Please note you will not receive insurance proceeds from an event occurring between 1 October 2013 and 30 September 2014.</p> <p>If an insurance event results in the termination of partial termination of an area of the Scheme, the Responsible Entity will be entitled to recover from the insurance proceeds a fee of \$500 per hectare (plus GST) of affected area for managing the insurance event.</p> <p>Each Insured Grower will have a proportionate interest in the Insurance Fund. The size of their interest is proportionate to their Interests in the Scheme, compared to all other Growers who are Insured Growers. SUMMARY OF KEY TERMS OF THE FORESTRY MANAGEMENT AND OFF-TAKE AGREEMENT

The Forestry Management and Off-take Agreement will only be entered into if MAAML becomes the New RE.

Forestry Management and Off-take Agreement – Summary

Parties

The parties to the agreement are the Responsible Entity, Growers (the Responsible Entity will execute the agreement on their behalf) and the Manager (Macquarie Forestry Services Pty Limited).

Term

The Forestry Management and Off-Take Agreement commences on the date that the agreement is entered into and continues for a period of 10 years (or until all the timber has been harvested, sold and paid for – if that date is later than 10 years following commencement of the agreement).

The agreement will terminate earlier if a party validly exercises its termination rights (see “Termination rights” below) or the Scheme is wound up.

Management and maintenance services to be provided by the Manager

The Manager is obliged to use the Land for the purpose of growing and maintaining the trees.

The Manager will provide ongoing management and maintenance of the Land at its own cost, and in a manner that is consistent with good forestry and industry practices. In particular, the Manager will, to the extent there are sufficient funds paid as “Annual Contributions” (see “Fees and expenses” section below) to, meet the costs of such services, perform continuing annual management and maintenance of the plantation in accordance with minimum Lease Agreement requirements and in accordance with good silvicultural practice, where it is commercially justified to do so and where the Manager considers it appropriate, in particular having regard to the condition of the Land. This may include taking reasonable steps to:

- control vermin and weeds to maintain satisfactory tree growth;
- appropriately manage tree nutrition to achieve or maintain satisfactory tree growth;
- maintain statutorily required firebreaks, for fire suppression purposes and comply with reasonable directions and statutory requirements, in relation to the prevention and control of fire;
- monitor plantation health throughout each year;
- manage any grazing by livestock on the Land;
- generally keep the Land clean and tidy for the conduct of the plantation;
- report to the Responsible Entity as reasonably required;
- where the Manager deems necessary, employ such staff and labour as are reasonably necessary for the purposes of the agreement including, without limitation, engaging the services of such consulting experts as may be reasonably necessary to assist the Manager in providing expert advice and assistance with respect to the growing of the trees;
- secure an independent review of the general silvicultural performance of the Scheme and deliver it to the Responsible Entity; and
- do other things, as reasonably determined by the Manager from time to time in its sole discretion and having regard to the condition of the trees and the Land as at the Appointment Date, for the growing of the trees for felling or sale when they are, in the opinion of the Manager, sufficiently mature.

Growers should note that the agreement provides that the Manager is not responsible for, and has no liability for, the status of the timber and the Land prior to the Appointment Date (**Current Status**) and will not be obliged to provide some or all of the services under the agreement if, having regard to the Current Status, the Manager determines, acting

Forestry Management and Off-take Agreement – Summary

reasonably, it is unreasonable for it to provide such services.

Arranging the harvest and sale of the trees

The Manager has the overall responsibility for arranging and procuring the harvest, transport, chipping, loading and any other functions necessary to facilitate a sale of the timber and any forest produce.

The Manager will determine whether the timber and forest produce is of merchantable quality and capable of sale. If capable of sale, the Manager will arrange for the harvest of the timber. The Manager is under no obligation to harvest if in the Manager's opinion the gross sale proceeds will be insufficient to meet the sales costs and fees associated with the sale.

The agreement provides that, upon harvest, the Manager agrees to buy and each Grower agrees to sell the forest produce at the "Aggregate Stumpage Price" (see below). When this occurs, title and interest in the timber and all forest produce will be transferred to the Manager and the Manager will then sell the timber and forest produce to third party buyers.

Aggregate Stumpage Price payable for the timber and forest produce

As noted above, upon harvest, the Manager agrees to buy and each Grower agrees to sell the forest produce at the "Aggregate Stumpage Price". The Aggregate Stumpage Price will be paid by the Manager to the Responsible Entity who will then distribute it to Growers, subject to the terms of the Constitution.

The Aggregate Stumpage Price is an amount equal to the gross sale proceeds received by the Manager on the sale of the timber and forest produce to a third party, less the costs of the sale, the Fixed Management Fee and the Sales Proceeds Fee (see the summary of "Fees and expenses" below).

The Manager is excused from the performance of any of its duties and obligations to the extent that such performance is prevented or interrupted by reason of force majeure.

Sale of Standing Timber

In the event that all or a proportion of the timber is to be sold prior to harvest (referred to as a Standing Timber Sale), the agreement provides for the appointment of the Manager by Growers to negotiate and arrange for the completion of the sale, collect the proceeds of the sale and pay those amounts (less applicable fees and expenses) to the Responsible Entity, who will then distribute it to Growers, subject to the terms of the Constitution.

Fees and expenses

In consideration for its services the Manager is entitled to the following fees:

- An upfront contribution of \$100 per Woodlot, payable by the Responsible Entity within 30 days of the New RE's appointment.
- An Annual Contribution fee of \$50 per Woodlot (increasing by CPI) payable by the Responsible Entity – the first fee is for the period from the New RE's appointment until 30 June 2014 and is thereafter for the 12 month period commencing 1 July each year.
- A "Fixed Management Fee" of \$900 per hectare (increased by CPI from the date of the agreement) – payable by the Grower within 30 days of the harvest and sale, or standing timber sale, as the case may be. This fee will be deducted from the gross sale proceeds before they are paid to the Responsible Entity.
- A "Sales Proceeds Fee" of 12.5% of the gross sales proceeds (less the sales costs and Fixed Management Fee) – payable by the Grower within 30 days of the harvest and sale, or standing timber sale, as the case may be. This fee will be deducted from the gross sale proceeds before they are paid to the Responsible Entity.

GST will be added to all fees.

In addition, the Manager is entitled to deduct all of its "sales costs" from the sales proceeds received on harvest and sale or a Standing Timber Sale. Sales costs include:

- all of the costs, including administrative costs, associated or connected with the Standing Timber Sale or the harvest, transport, chipping, roading, stockpiling, processing or loading of the forest produce or timber;
- costs of insurance, transport, delivery and shipping, costs of and related to the negotiation of sales contracts, fees paid in respect of the use of any facility or instrumentality and all taxes levies imposts and charges of any nature imposed by the Commonwealth of Australia or any State;
- any other costs incurred to facilitate a Standing Timber Sale (including the Manager's internal expenses determined in accordance with the agreement) or a sale of the timber or forest produce (as applicable); and
- any other amounts owing to the Manager (including interest) that the Manager has funded without reimbursement in connection with the Standing Timber Sale or the harvesting of the timber and sale of the forest produce.

Forestry Management and Off-take Agreement – Summary

The Manager may deduct from sale proceeds to be paid to the Responsible Entity all amounts owing to the Manager under the agreement.

Termination rights

The Responsible Entity has the right to terminate the agreement by notice in writing to the Manager if:

- an insolvency event occurs in respect of the Manager; or
- the Manager commits a continuing, unremedied breach of the agreement.

The Manager has the right to terminate by notice in writing to the Responsible Entity if:

- an insolvency event or change of control event occurs in respect of the Responsible Entity;
- the Macquarie nominee is removed as the Responsible Entity of the Scheme;
- the Responsible Entity commits any continuing, unremedied breach of the Constitution that in the reasonable opinion of the Manager has an adverse effect on the Scheme or the Manager's ability to perform its obligations under the agreement; or
- the Manager issues advice to the Responsible Entity that the Responsible Entity should wind-up the Scheme and the Responsible Entity does not commence steps to wind up the Scheme within 30 days of that advice.

Upon termination (in addition to any accrued rights and fees), the Manager is entitled to be paid:

- 50% of the "Projected Additional Fees" if the Manager terminates the agreement; or
- 25% of the "Projected Additional Fees" if the agreement is terminated for any other reason (including because the Scheme is wound up).

The Projected Additional Fees is an amount equal to the projected fees the Manager would have received under the agreement over its full term – calculated in accordance with the agreement.

In order to ensure that the Manager receives the above termination fee, the agreement provides for certain rights of the Manager to:

- access the land, harvest and sell any tress yet to be harvested as necessary to recover any amounts owed to the Manager; and
- retain any sale proceeds to the extent required to recover any amounts owed to the Manager.

Appointment of agents and attorneys by the Manager

The Manager, at its own cost, may employ agents and attorneys, and appoint any competent person or delegate to carry out any obligation of the Manager on its behalf.

Responsible Entity's capacity and limitation of liability

The agreement will include standard terms that confirm that the Responsible Entity is a party to the agreement in its capacity as Responsible Entity and that its liability is (to the extent permitted by law) limited to its right of indemnity from Scheme assets.

Goods and Services Tax

The agreement will provide that all amounts payable under the agreement are to be grossed up for GST. All amounts payable are confirmed to be exclusive of GST such that GST will be added to those amounts at the prevailing rate.

1. Key elements of the Settlement Proposal

The Settlement Proposal aims to realise value for Growers in the 1995 to 2001 Schemes in a number of ways. Under the Settlement Proposal, the land owned by entities in the FEA Group (**Internal Land**) will be offered for sale on the open market. Depending on the structure of the bids received:

- Land owned by the FEA Group will be offered for sale on an unencumbered basis - that is, with land and trees offered for sale together. In this case, Growers will receive a share of the net proceeds of the sale of the Full Estate. To enable the Full Estate to be sold on this basis, amendments will need to be made to the Scheme's Constitution, detailed further in this Explanatory Memorandum. This sales process is referred to as a **One Line Sale**.
- Alternatively, the Tasmanian Estate will be offered for sale with the 1995 to 2001 Schemes to remain in place and provided that all Conditions Precedent (detailed in Part B, section 2 of this Explanatory Memorandum) are satisfied (or waived), Macquarie Alternative Assets Management Ltd, an entity operated by the Macquarie

Group, will become the New Responsible entity (**New RE**) and Macquarie Forestry Services Pty Ltd will become the new **Manager** of your Scheme. It is expected that the Scheme will continue through to harvest, with returns being made to Growers upon harvest. To enable the Tasmanian Estate to be sold on this basis, the Scheme will need to amend its Constitution and related Project Documents to provide for more commercially practical lease and management arrangements. These amendments are detailed further in this Explanatory Memorandum. This sales process is referred to as the **MIS Transition**. The Remaining Estate will be sold on an unencumbered basis.

Whether the Internal Land is sold subject to the One Line Sale or subject to the MIS Transition will depend on the structure of the bids received. In light of this, the Receivers will be obliged to determine whether the sale should proceed as a One Line Sale or an MIS Transition. This assumes all proposed resolutions are passed. In making the determination, the Receivers will work closely with a Sales Advisor appointed jointly by the Deed Administrators and the Receivers. The Receivers will have regard to their statutory duty to obtain the best price reasonably obtainable and will carefully assess the bids made by all potential purchasers. In either scenario, the Deed Administrators anticipate that returns will be made to Growers.

The Settlement Proposal does not impact on the ability of the Deed Administrators, the current RE, or the new RE (if one is appointed) to continue to harvest timber located on External Land. The realisation of such timber will be comprised within the Grower Proceeds. In order for the Settlement Proposal to be implemented, **Growers must vote in favour of all resolutions**.

- Some Growers of the 2002-2009 Scheme ("**Discontinued Schemes**") Growers have made voluntary contributions to FEAP subsequent to April 2010 being when the Receivers and Administrators were appointed. Those payments have assisted FEAP to defend the attempts by the Receivers to take possession of all land and trees. It is equitable that those Growers be refunded those contributions as they will have assisted the Deed Administrators in achieving the Settlement Proposal, if it is successful.

2. Conditions Precedent

To provide Members, the Manager and the New RE with greater certainty about the MIS Transition under the Settlement Proposal, there are certain Conditions Precedent that must be satisfied (unless waived by the proposed New RE) before the New RE will unconditionally consent to become the Scheme's new responsible entity. If the Conditions Precedent are not satisfied (or waived), the One Line Sale may be effected assuming the Implementation Deed has become operative (**Operative Date**).

- ASIC relief from section 601FL of the Corporations Act is obtained in a form satisfactory to the New RE prior to the meeting of members for each Continuing Scheme, enabling the New RE to lodge a request to ASIC to alter the record of the Scheme's registration to name the New RE as the responsible entity after these Conditions Precedent are satisfied.
- Tax / duties advice has been obtained by the New RE to its satisfaction prior to the meeting of members for each Continuing Scheme.
- The New RE has obtained all necessary internal approvals prior to the meeting of members for each Continuing Scheme.
- The Deed Administrators have provided the New RE with the necessary representations and warranties required by the New RE in relation to the Scheme liabilities and in relation to the leases in place and terminated for the Continuing Schemes prior to the meeting of members for each Continuing Scheme.
- Each Resolution in the meeting of members for each Continuing Scheme is successfully passed such that the constitution and project agreements are amended in a form satisfactory to the New RE.
- As at the Operative Date, there must be no material lease liabilities arising prior to the date of appointment of the administrator that remain uncompromised.
- The New RE has reviewed the Implementation Deed and is satisfied that no further amendments are required to be made to the Implementation Deed and/or the FEA and FEAP DOCAs (as varied by meetings of creditors held on 28 June 2013).
- The FEA and FEAP DOCAs (as varied by meetings of creditors held on 28 June 2013) are effectuated and the New RE is satisfied that all liabilities (save and except only those due to the secured creditors or lessors) are entirely compromised and satisfied (including any claims under Part 5C.8 of the Corporations Act).
- The Implementation Deed is effective and all liabilities (including to secured creditors) are compromised and claims released as set out therein.
- The Receivers determine that the Tasmanian Estate is to be sold subject to the MIS Disposal on such terms as agreed to by the New RE in its absolute discretion (**Determination Date**).

- K. The New RE is satisfied with the form of the sale process protocols agreed to by Gresham Partners and the Receivers to effect the MIS Disposal.
- L. Appropriate due diligence including forestry, legal and other necessary due diligence has been performed by the New RE or Manager to their satisfaction by the Determination Date, and there must be no material differences from the data provided by the Deed Administrators in the Woodstock information to the New RE on 11 September 2013.
- M. The New RE is satisfied that the Premiums paid by the Receivers which are to be borne by the New RE in its capacity as responsible entity pursuant to the Implementation Deed are not be materially different from the insurance cost quotations obtained by the Deed Administrators and provided to the New RE on 26 June 2013.
- N. The New RE is satisfied that the Administration liabilities as at the Determination Date are not materially different from the forecasts provided to the New RE by the Deed Administrators on 20 September 2013.
- O. The New RE is satisfied there are no material adverse changes in the Scheme Property or in market conditions affecting the Australian hardwood woodchip export market or its outlook (in the view of the New RE) between the date the DOCAs were executed and the Determination Date.
- P. Within two months of the Determination Date, the 'Deed of Novation and Surrender' is executed by the relevant parties in accordance with the agreed form provided to FEAP and the Receivers by the New RE on 19 September 2013.
- Q. There are no new Court proceedings that affect any Continuing Scheme and no determination of any existing or potential Court proceeding in a way that the New RE considers to be adverse contrary or prejudicial to the normal operation of the Scheme as at the Determination Date.
- R. Within two months of the Determination Date, a new lease has been entered into by FEAP in relation to any property where the landowner was the lessor under any lease to a member of a Continuing Scheme, in accordance with the agreed form provided to the Receivers and FEAP by the New RE in September 2013.
- S. Within two months of the Determination Date, all leases (other than leases presently between a third party landowner and either FEA or FEAP) with respect to the Tasmanian Estate are amended in accordance with the agreed form provided to FEAP in September 2013.
- T. Within two months of the Determination Date, all leases presently between a third party landowner and FEA in respect of land utilised by the Continuing Schemes have been assigned or novated to FEAP on terms approved by the New RE.
- U. Within two months of the Determination Date, all Grower sub-leases and forestry management agreements for the Continuing Schemes have been novated to FEAP.

Where any Condition Precedent requires the approval or satisfaction of the New RE, such approval or satisfaction may be given or withheld by the New RE in its absolute and unfettered discretion and without the need to provide any reasons therefor other than for Condition 'P', which can only be jointly waived with the Receivers.

In relation to Condition Precedent A', the Deed Administrators, with the Consent of the New RE, have applied to ASIC for a modification of section 601FL of the Corporations Act in order to defer providing the notice to ASIC of the change of RE until completion of the sale of the Tasmanian Estate. Section 601FL requires that ASIC be notified within 2 business days.

If the Conditions Precedent are not satisfied or waived, including significantly if the Receivers do not determine that the Tasmanian Estate is to be sold subject to the MIS Transition, then the Tasmanian Estate will be sold subject to a One Line Sale, with a share of the net sales proceeds of the Full Estate to be distributed to Growers. In the event External Land is utilised in the Scheme it will be harvested and harvest proceeds distributed pro rata to Growers after costs including harvest costs.

MIS TRANSITION PROCESS

3. Key parties

Macquarie Alternative Assets Management Ltd as the New RE and Macquarie Forestry Services Pty Ltd as Manager

If the Receivers determine that the Internal Land be sold subject to the MIS Transition and the Conditions Precedent are satisfied or waived then it is proposed that Macquarie Alternative Assets Management Ltd will be responsible for operating the Scheme in accordance with the Constitution (as amended under this Settlement Proposal) and the Corporations Act. More information about the New RE can be found in Part C of this document.

The New RE will appoint Macquarie Forestry Services Pty Ltd as Manager of the forestry plantations. The Manager will be responsible for ensuring management and maintenance activities are performed on the plantations through until harvest. The Manager may engage third-party contractors to provide some of these services.

Macquarie Alternative Assets Management Ltd and Macquarie Forestry Services Pty Ltd are both entities within the Macquarie Group. The Macquarie Group is a profitable, well-funded and well-capitalised financial institution that derives its income from a diversified range of activities and does not rely on income generated solely from forestry activities to remain profitable.

Macquarie Forestry Services Pty Ltd has been responsible for various forestry operations since 2003 and manages over 21,500 hectares of forestry estate across Australia, including:

- sourcing and managing foresters and forestry experts;
- sourcing and managing environmental and conservation expertise; and
- overseeing forestry reporting and administration.

3.1 Fees

If the Internal Land is sold subject to the MIS Transition and FEAP is replaced as Responsible Entity by the New RE, then all Growers will be required to make ongoing contributions to the Scheme.

Growers will maintain an interest in the Scheme under an annual contribution model. Growers will be required to make an initial contribution and annual contributions to the Manager until their timber is harvested and/or sold. Proceeds received from these contributions may be used by the Manager to meet expenses associated with the ongoing maintenance of the plantations (including overheads associated with managing the estate), ensuring rent under the new leases are paid and paying certain fees and expenses of the New RE for managing the Scheme.

The contribution structure is as described earlier in this Settlement Proposal under "MIS Transition Process - Key Terms"

3.2 Repayments to eligible Growers

Growers of all Schemes, both Continuing and Discontinued have made voluntary payments to FEAP since appointment of Administrators and Receivers in April 2010. Those payments have assisted FEAP to continue to protect Growers' rights. It is equitable that the payments be refunded and a premium be paid to those Growers from harvest proceeds.

3.3 Continuing through to harvest

Under the MIS Transition, the New RE and /or the new Manager will be responsible for organising the harvest of your timber. The Manager intends to harvest your timber over multiple periods. This means that, for example, a Scheme with a previously planned harvest in 2015 may be sold or harvested earlier, or across multiple years, or may be sold or harvested at some later date. As a result you may receive multiple sale or harvest payments across different years. The Manager may seek to accelerate the harvest of some properties to generate earlier cash proceeds for Growers or to pay Scheme liabilities.

3.4 All Growers entitled to harvest (or sale) proceeds

Currently, Growers hold Woodlots that relate to specific parcels of land.

A key feature of the Settlement Proposal is to change the Scheme structure so that all Growers become entitled to a share of the Net Sale Proceeds, regardless of where the Woodlots that relate to their Interest in the Scheme are located. This means that no Grower will be disenfranchised if they were originally allocated a Woodlot in an area that is being discontinued.

3.5 Continued Area (adjusted woodlot size) and your interest following implementation of the MIS Transition

When the Scheme was established, the original RE held leases with a number of different landlords over 204.40 hectares of planted area and each Woodlot represented approximately 0.33 hectare of forestry plantation.

The MIS Transition you are being asked to vote on in the Resolutions does not envisage carrying forward all existing leases. Instead, the continuing land area will reduce to approximately 204.40 hectares (the **Continued Area**).

Therefore, each Woodlot (or Interest)⁴ will reflect an entitlement to proceeds referable to approximately 0.33 hectares of forestry plantation.

The table below summarises the Original and Continuing Hectares and Woodlot size:

| Original Hectares | Continuing Hectares | Proportionate Hectares Continuing | Original Woodlot Size (ha) | Initial Adjusted Woodlot Size (ha) |
|-------------------|---------------------|-----------------------------------|----------------------------|------------------------------------|
| 204.40 | 204.40 | 1.00 | 0.33 | 0.33 |

Under the MIS Transition, a Woodlot is simply a reference to your Interest in the Scheme.

Each Woodlot (or Interest) in the Scheme will be entitled to the proceeds generated and pooled from the Continued Area (after deducting any associated fees and costs).

3.6 Insurance

Following the implementation of the MIS Transition, Growers may elect to have the New RE obtain insurance on their behalf with respect to their Interest in the Scheme. The New RE may endeavour to arrange insurance against fire and other insurable risks normally covered by standard rural insurance. Please note, risks that are not expected to be covered by insurance include, but are not limited to, drought and flood.

The Receivers have agreed to pay the full insurance premiums to cover the Tasmanian Internal Properties for FY14. Subject to the outcome of the sale process, the FY14 Internal Property insurance will be treated as follows:

One Line Sale – The Receivers will be reimbursed a percentage of the insurance premiums calculated by dividing each Scheme’s proportionate share of the Full Estate by the total Full Estate insurance premiums. If an insurance event occurs prior to settlement, the Growers/Banks will share in the proceeds calculated under the same terms mentioned above.

MIS Transition Process – The New RE will be required to refund the premiums paid by the Receivers on the continuing Internal Properties. If an insurance event occurs during this transition period, the Scheme in which the property is located will be entitled to the insurance proceeds.

Under either sale scenario, the current RE will be responsible for the insurance of trees on External Land through until 30 September 2014 or some earlier date depending on the outcome of the sales process.

If the MIS Transition proceeds, the New RE may arrange for tree insurance over your Interest in the Scheme. The New RE may charge an insurance handling fee equal to 10% of the premium per Grower who takes up the insurance option (Insurance Administration Fee). Growers electing insurance coverage will be required to pay their insurance premium each year through a cash payment. Under the MIS Transition, insurance will not be compulsory

The level of insurance coverage taken out each year will be determined based on the percentage of total Interests in the Scheme insured. For example, if the insurable value for 100% of the Continued Area is \$10 million, but only 75% of all Interests in the Scheme have elected (or are required to have) insurance, then insurance coverage of \$7.5 million will be taken out.

In consideration for managing an insurance event which results in termination or partial termination of an area of Continued Area, the Manager is entitled to receive \$500 per hectare (exclusive of GST) of affected Continued Area (Insurance Event Management Fee), payable by the New RE to the Manager out of any gross insurance proceeds received.

Any net insurance claim proceeds arising from events following 30 September 2014 will be placed into an Insurance Proceeds Fund and distributed proportionately to all those Growers who have taken out insurance under the terms of the Constitution. Please note you will not receive insurance proceeds from an event occurring between 1 October 2013 and 30 September 2014. If you still have a lease agreement, the insurance policy will not cover you for a fire against

⁴ Please note that the references to Woodlots or Interests may be used interchangeably in this document. Under the Proposal, Growers will be assigned Interests in the Scheme. The number of Interests held will reflect the number of Woodlots originally owned by the Grower.

the land referred to in your lease agreement. Those Growers who did not take out insurance will not be entitled to any of the net insurance proceeds received.

The number of Woodlots owned by a Grower will not be changed if there is an insurance event that destroys a plantation area. Rather, the Continued Area of the Scheme will be reduced by **the destroyed amount**.

3.7 Fee Summary

The following tables show the fees that will apply to the Scheme (**Fees**). All amounts are stated exclusive of any GST that may apply. You will be required to pay an additional amount on account of GST for those fees that are subject to GST.

Table 1: Fees payable to the New RE under the Scheme Constitution

| | Proposed fee Per Woodlot (unless otherwise stated) (\$) | Current Fee under FEAP Scheme (\$) |
|---|--|---------------------------------------|
| Initial Contribution | \$ 100.00 | Nil |
| A fee payable per Woodlot to the New RE for restructuring the Scheme | | |
| Management Fee | \$ 50.00 | \$ 37.78 |
| An annual fee payable per Woodlot to the New Manager to maintain the plantation | | |
| Lease Fee – Ongoing Members | \$ 100.00 | \$ 136.99 |
| Annual rent payable per Woodlot to the New RE for Members who did not pay a once only rental payment, but were obliged to make annual payments of a consistent base amount (adjusted for inflation) | | |
| Lease Fee – Prepaid Members | \$ 89.10 | \$ 0.00 |
| Annual rent payable per Woodlot to the New RE for Members who paid a once only rental payment on entry into their original Lease agreement (along with any annual fee if applicable) | | |
| Fixed Management Fee | \$ 900.00 | Nil |
| A fee per hectare or part thereof of land that is harvested and sold, or subject to a standing timber sale payable from harvest proceeds | | |
| Sales Proceeds Fee | 12.50% | Nil |
| A fee payable: in the event of a harvest and sale, out of gross sales proceeds, less sales costs and the Fixed Management Fee. In the event of a standing timber sale, the sales proceeds less the sales costs and the Fixed Management Fee to the New RE. | | |

The New RE will charge you under the revised fee arrangements from the period from its appointment. Please note that you remain liable for any fees that were due and payable prior to the New RE's appointment, and no refund or credit will be available to you for any overlapping charge periods.

3.9 Paying your fees on time

Under the MIS Transition, every year, Growers will be sent an invoice that will set out the details of fees that must be paid and when they are payable. If you do not pay an amount when due Please note that default interest will apply at an interest rate of 14.9% pa to any outstanding balances or late payment of fees. If you continue to default on payment of fees that are due beyond a 60 day period, the New RE may choose to sell your Woodlots in the Scheme and assign them to someone else. To the extent that proceeds recovered are not sufficient to satisfy any outstanding fees that are due, the New RE may assign all of your Woodlots, even if the default relates to only some of your

Woodlots. In doing so, the New RE may find a buyer in order to set a market value for your Woodlots, but in the absence of an interested buyer, the price will be \$1 per hectare. If the New RE does not assign your Woodlots for \$1 per hectare the New RE may cancel your Woodlots. You may therefore cease to have an Interest in the Scheme if you fail to meet your payment obligations. You will also be personally liable for any short-fall in amounts outstanding.

In cases of financial hardship, you should contact the New RE.

3.10 Other costs

There are other costs which may exist that could apply to your Scheme, for example, costs associated with any litigation concerning the Scheme. These costs, if applicable, will be taken out of Net Sale Proceeds before any returns are paid to Growers. You should refer to the risks in Part A - Section 5 for more information.

3.11 Rent

Under the MIS Transition, a new leasing arrangement will be entered into with the Buyer of the Tasmanian Estate. The New RE will pay rent to the Buyer at agreed rates, in exchange for the right for the New RE to occupy the Tasmanian Estate in order to continue to conduct the Schemes on the Tasmanian Estate (**New Leases**). Based on the information that has been made available to the Deed Administrators, the Deed Administrators understand that the Continued Area is expected to initially (upon the appointment of the New RE) comprise approximately 204.40 hectares of land.

3.12 Key Parties (existing Scheme vs proposed Scheme)

| | Current | MIS Transition |
|---------------------------------------|--|--|
| Responsible entity | FEA Plantations Ltd (Subject to Deed of Company Arrangement) (Receivers Appointed) | Macquarie Alternative Assets Management Ltd ACN103 237 181 |

4. Key considerations that may adversely affect Growers' rights

The Deed Administrators have developed the Settlement Proposal in order to manage exposure to a number of risks. The Settlement Proposal includes some changes which may be disadvantageous to Growers or which may adversely affect Growers' rights. As many of these changes are to be made in the Scheme's Constitution, the Corporations Act provides that the changes must be approved by a special resolution of Growers. A detailed summary of the proposed amendments to the Constitution is provided in Part B of this Settlement Proposal

The key aspects of the Settlement Proposal that may adversely affect Growers rights is provided below.

- a. If the One Line Sale proceeds:
 - I. the replacement of Growers' interests in trees with Growers' rights to be paid a share of the net sale proceeds of the Tasmanian Estate;
 - II. the granting to FEAP of a power of attorney to make certain decisions on behalf of Growers in relation to interests they may have in leases and trees.
 - III. The provision of insurance cover and conducting of maintenance by the Receivers on the Tasmanian Estate until sale.
 - IV. The granting of powers of attorney to FEAP and to the Receivers to allow for termination of Growers' occupancy rights.
- b. If the MIS Transition proceeds and the Scheme is restructured:
 - I. changes to the payments required to be made by Growers to the New RE (including revised compulsory contributions);
 - II. the reduction in, and possible surrender of, entitlements to the benefits produced by the Scheme if a Grower does not meet the revised compulsory contributions ;
 - III. an increase in the scope of the New RE's right to be indemnified out of Scheme property;

- IV. an increase in the powers of the New RE with respect to managing the business, investments and affairs of the Scheme including planning and arranging options for restructuring the Scheme, including harvesting and/or selling prior to harvest;
- V. the ability of the New RE to borrow for the purposes of the Scheme, including providing security that affects the assets of the Scheme;
- VI. the granting to the New RE of a power of attorney to make certain decisions on behalf of Growers with respect to their rights over the timber or other actions as deemed necessary to continue the operation or preserve the assets of the Scheme, including harvesting and/or selling prior to harvest;
- VII. the transfer of title to the timber that is harvested to the Manager so that it can be sold on behalf of Growers.

More information about the changes to the Scheme constitution is set out in Part A of this Explanatory Memorandum.

5. Risks

There are a number of factors that may affect the value of your investment. It is important that Growers read this information carefully as there are various risks associated with agricultural managed investment schemes and the restructure of such schemes after the insolvency of a responsible entity.

The following does not purport to be a comprehensive summary of all of the risks associated with the Settlement Proposal. There is the potential for multiple risks to occur simultaneously. If you are uncertain about any aspects of the Settlement Proposal and the associated risks you should seek your own professional advice on the appropriateness of the Settlement Proposal.

No assurances or guarantees on future returns and return of capital are provided.

Some of the key risks specific to the Settlement Proposal and to the Scheme continuing with the New RE on the basis of the MIS Transition include:

A. Risk of additional liabilities

Under the Corporations Act, if the RE of a registered scheme changes, some of the rights, obligations and liabilities of the former RE in relation to the Scheme may become rights, obligations and liabilities of the New RE.

Under the MIS Transition, the New RE will be indemnified for all liabilities it incurs in relation to the proper performance of its duties and such amounts will be reimbursable out of Scheme property.

Under the MIS Transition the New RE will become liable for certain obligations and liabilities of FEAP, in particular those relating to claims for outstanding rent in relation to External Land owners. However, Growers should be aware that the Settlement Proposal, if implemented, will result in a consensual release of all claims as between the FEA Group companies, the Deed Administrators, the Receivers and the Banks. Therefore, relevant liabilities owing between those entities will be extinguished.

B. Insolvency risk

If the MIS Transition is implemented, Growers may be exposed to the risk of an adverse change in the financial position of Macquarie Forestry Services Pty Limited who will be appointed as Manager of the plantations. Any adverse change in the financial position of the Manager may affect its ability to properly manage and maintain the plantations. This has the potential to negatively affect your investment returns. In the event, however, that the Manager becomes insolvent, the New RE will be able to appoint a replacement Manager to manage the plantations on your behalf.

Growers may also be exposed to the risk of an adverse change in the financial position of any third-party forestry contractor. This exposure is mitigated by the existence of numerous forestry maintenance organisations in the market which may be capable of assuming the role as third-party forestry contractor, although there is no guarantee that it would be at the same rates.

An adverse change in the financial position of the New RE may also affect its ability to properly perform its functions required to operate the Scheme. In the event that the New RE were to become insolvent, the ongoing viability of the Scheme would depend upon the ability to appoint a new entity to act as responsible entity of the Scheme. In such a situation, in determining whether the Schemes should be wound-up or not, a new or temporary responsible entity may consider the ability for the Scheme to have its ongoing working capital commitments, such as ongoing maintenance and management of the plantations, met. There is no guarantee however that an alternative, qualified and willing responsible entity would be available and there is no obligation upon a Macquarie Group entity to step in as a replacement responsible entity.

Growers are also exposed to the risk that claims by third parties are made and validated against Scheme assets and/or the New RE in relation to the Scheme. To the extent that such claims are made and validated, it may crystallise

a liability on the Scheme or the New RE to satisfy these liabilities. The New RE may seek to increase Contributions from Growers, request the Manager to accelerate harvest of the timber, request the Manager to seek buyers of the standing timber or permit the Scheme to borrow money in order to fund these amounts. To the extent that sufficient funds are not available to meet these payments, there is a risk that the Scheme may need to be wound-up.

By restructuring the Scheme to require Annual Contributions to be made by Growers, Growers can ensure that funds are made available to help meet these ongoing commitments. There is no guarantee however that all Growers will meet their Annual Contribution payments, and therefore funds received may be insufficient to meet these expenses. In the event that insufficient funds are available, the Manager may reduce performing ongoing maintenance obligations on the plantations.

C. Non-performance risk

Growers would be exposed to the risk of Macquarie Forestry Services Pty Limited as appointed Manager of the plantations or Macquarie Alternative Assets Management Limited as the New RE not performing and adequately discharging their obligations to the Scheme. Any non-performance of the Manager or the New RE may affect the operation of the Scheme and this has the potential to negatively affect your investment returns.

D. Substitution of Lease rights

If the One Line Sale proceeds the Growers will be exchanging their interest in land and trees for a proportionate share of the sale proceeds of the Full Estate.

E. Growers who financed their investment

A number of Growers may have financed the acquisition of their Woodlots in the Scheme by obtaining a loan for some or all of their original subscription monies from a lender. The loan documentation may have provisions in it which outline that an event of insolvency by FEAP or another Grower of the FEA Group may give cause for the lender to issue a notice of default to the Grower with respect to their loan.

Your loan documentation may also contain a requirement for you not to do certain things without the approval of your lender, including entering into new agreements with respect to your Scheme. We note that the insolvency of the FEA Group, including FEAP, may have already triggered a right for lenders to issue a notice of default, regardless of whether Growers decide to vote in favour of this Settlement Proposal. All Growers who obtained a loan in order to fund their subscription monies for investment in the Scheme should refer to their loan documentation.

F. Other Growers action

All Growers will be required to make ongoing contributions to the Scheme. Those Growers who fail to fulfil their obligations in making ongoing contributions risk impacting other Growers in the scheme. Growers who default on their contributions could lead to a shortfall for paying scheme expenses or liabilities which would adversely affect the Scheme and other Growers.

G. Early wind-up prior to harvest

Depending on market conditions there may be opportunity to pursue an active and orderly sales process of timber and the New RE must act in the best interests of all Growers in doing so and in accepting any opportunity. However given difficult market conditions which may or may not continue in the future, there is no assurance that any settlement or the sale of trees prior to harvest would compare favourably as against operating the Scheme to harvest.

H. Risk of delay in seeking to implement the Settlement Proposal

The insolvency and restructuring of the FEA Group is a complex process and involves a number of stakeholders with differing and sometimes competing interests. There is a risk that the implementation of the Settlement Proposal may experience lengthy delays and that these delays may be prohibitive to the MIS Transition proceeding as a result of a failure to achieve Conditions Precedent within the requisite timeframes.

I. Previously disclosed other Risks

If the Settlement Proposal is successful, there are risks faced by Growers that are of a similar nature as those disclosed in the Prospectus under which Growers acquired their interest in the Scheme. To facilitate the revision of these risks by Growers, the Scheme Prospectus will be available on our website at www.briferrier.com.au. These risks include:

- Timber Price Risk
- Foreign Exchange Risk

- Access to Infrastructure Risk
- Yield and Quality Risk
- Environmental Risk
- Fire Risk
- Regulatory Risk
- Loss of Investment Risk

J. Tax Risk

- Under both the One Line Sale arrangements and the MIS Transition, there are certain transfers of land and/or transfers and amendments to lease arrangements on which certain taxes or duties may be payable. To the extent that such taxes or duties are levied, then Growers will be liable for such amounts. The responsible entity will advise Growers of any such amounts payable.
- There is a risk that any tax treatment available, or thought to be available at some point, and the ruling (if any) on which that treatment is/was based, may no longer be available to the Growers.
- It is expected that GST will be applicable on all fees as well as most (if not all) of the costs and expenses of the Schemes. Growers should not rely on input tax or other credits being available for any GST payments.
- The Growers are reminded that they must seek and rely on their own advice in respect of all matters pertaining to this Settlement Proposal, but particularly the tax treatment of their involvement, past or continuing, in the Scheme.

K. Risks associated with One Line Sale Proposal

Some of the key risks specific to the Settlement Proposal and to the land and trees being sold unencumbered under the One Line Sale method include:

- Prices which may be obtained for the land and trees depend upon the appetite of potential purchasers. There may not be purchasers prepared to pay the prices sought by the Receivers. Further, it is possible that there may be multiple potential purchasers for different parts of the estate and/or parts of the estate may be more difficult to sell than others;
- Not all the estate may be sold at the same time as settlements may well be staggered over time so that the ability of the RE to make distributions to Growers may extend over a lengthy period;
- Prices obtained may be affected by the economic conditions prevailing at the time including projected demand for timber and the ability of potential purchasers to fund acquisitions.

Part C – Appointment of Macquarie Alternative Assets Management Ltd as Responsible Entity

Resolution 3 - To consider and, if thought fit, pass the following Resolution as an extraordinary resolution:

"That:

(a) subject to and conditional upon:

(i) completion of a disposal of land comprised in the Tasmanian Estate with such land being disposed of subject to MIS Encumbrances (MIS Disposal); and

(ii) the conditions precedent referred to in the attached schedule 1 being satisfied or waived:

then

(iii) The Responsible Entity be directed to execute on behalf of members any document required to novate any scheme documents to the Responsible Entity from another entity in the FEA Group; and

(iv) FEAP retire as Responsible Entity of the Scheme and Macquarie Alternative Asset Management Ltd be appointed as Responsible Entity of the Scheme in its stead; or

(b) if there is no MIS Disposal on or before 31 March 2014:

(i) the Scheme be wound up pursuant to Section 601NB of the Corporations Act and Section 5.1(a) of the Constitution together with any order which the Court may seem fit to make pursuant to Section 601NF(2) of the Corporations Act; and

(ii) Brian Raymond Silvia and Peter Paul Krejci be appointed to take responsibility for ensuring that the Scheme is wound up in accordance with its Constitution; and

(iii) the winding up be postponed pursuant to Clause 5.3 of the Constitution of the Scheme for such a period as the Responsible Entity may determine is in the interests of members of the Scheme; and

(iv) the members authorize and direct the Responsible Entity (and any other person authorized by the Responsible Entity) as their attorney to execute on their behalf all documents required to acknowledge termination of any leases held or interests in forestry rights held by or for the benefits of any members, or to assign, novate, surrender or otherwise deal with such leases or interests."

Resolution 3

The Settlement Proposal allows the Deed Administrators and the Receivers to respond to the market by offering the Land for sale on an unencumbered (One Line Sale) or encumbered (MIS Transition) basis at a prospective purchaser's election. It is envisaged that this flexibility will ensure the optimal result from the sales process is achieved. Whether the Land is sold subject to the One-Line Sale or subject to the MIS Transition will ultimately be determined by the Receivers.

If the Receivers determine the MIS Transition is the preferred sale method, then subject to the Conditions Precedent being satisfied (or waived), FEAP will retire as Responsible Entity of the Scheme and Macquarie Alternative Assets Management Ltd will be appointed as the New Responsible Entity.

In the event the New RE does not unconditionally consent to become the New RE by 31 March 2014 for whatever reason, (including if there is to be a One Line Sale) the Scheme will be wound up in accordance with the Constitution.

About Macquarie Alternative Assets Management Limited

Resolution 3(a)(iv) is a resolution for FEAP to retire as Responsible Entity of the Scheme and for Macquarie Alternative Assets Management Ltd to be appointed as the New Responsible Entity.

FEAP is in administration and has no capacity to continue to operate the Scheme. The Scheme cannot continue under the current arrangements. Notwithstanding that FEAP is insolvent, it remains as the Responsible Entity of the Scheme.

Whilst some funding has been available to the Deed Administrators by way of voluntary contributions in order to protect the value of the Scheme, this funding has been limited. Should Growers not resolve to appoint the New RE as replacement responsible entity, FEAP will make an application to the Court for the winding-up of the Scheme.

There is considerable uncertainty as to the value, if any, of the Growers' interests in a winding-up.

The Macquarie Group has been operating Australian forestry investments for retail investors since 2003 and currently has more than 21,500 hectares of forestry plantations under management. The Macquarie Group has been listed on the Australian Securities Exchange since 1996.

The New RE, Macquarie Alternative Assets Management Limited, is a wholly owned subsidiary of the Macquarie Group and holds an Australian Financial Services Licence (No. 225758) from the Australian Securities and Investments Commission (ASIC) which authorises it to act as Responsible Entity of forestry schemes.

Staff and facilities from within the Macquarie Group are available to enable the New RE to perform its function as the Responsible Entity. The New RE's financial reports are lodged with, and available from, ASIC.

The New RE is well capitalised and funded. Macquarie Group's capital surplus on a proforma basis under Harmonised Basel III was \$A3.5 billion at 31 March 2013 and the common equity Tier 1 ratio for Macquarie Bank Limited was 12.2% at 31 March 2013 (excluding capital surplus held in the non-banking group). For further information, please refer to Macquarie's 2013 Annual Financial Report and Result Announcement for the full year ended 31 March 2013.

As set out above, the New RE has the resources, the experience, the ability and industry network, as well as the financial capacity, to assume the role of Responsible Entity.

Winding up the Scheme

If, for any reason, an MIS Transition has not been affected on or before the 31 March 2014, then the requisite steps will be taken to wind up the Scheme pursuant to Section 601NB of the Corporations Act and Section 5.1(a) of the Constitution, together with any order the Court may see fit to make pursuant to Section 601NF(2) of the Corporations Act.

The Deed Administrators will be appointed to take responsibility for ensuring that the Scheme is wound up in accordance with its Constitution.

The Constitution provides the framework for the orderly winding up of the Scheme, particularly as regards realisation of Scheme property and distribution of the proceeds of realisation. The Constitution specifically provides for some flexibility in respect of the winding up, in particular allowing for the postponement of the winding up where the Responsible Entity is of the view that it is beneficial for the Growers for such a postponement to take place.

The Constitution also provides for an independent audit of the final accounts for the Scheme to safeguard the interests of stakeholders, particularly Growers.

24.1026.7 Waiver

No waiver of any breach of this Constitution or of any of the provisions hereof shall be effective unless such waiver is in writing and signed by the party hereto against whom the waiver is claimed and no waiver of any breach shall be deemed to be a waiver of any other or subsequent breach of this Constitution.

24.1126.8 Proper Law

The Constitution is governed by and to be interpreted in accordance with the laws of Tasmania New South Wales, and where applicable, the laws of the Commonwealth of Australia and the parties to this Constitution agree to submit to the jurisdiction of the courts of New South Wales and, if applicable, the Commonwealth of Australia.

26.9 Indemnities

Unless expressly provided otherwise:

- (a) each indemnity in this Constitution is a continuing obligation, separate and independent from the other obligations of the parties, and survives termination, completion or expiration of this Constitution;
- (b) it is not necessary for a party to incur expense or make any payment before enforcing a right of indemnity conferred by this Constitution; and
- (c) the making of a claim by a party under an indemnity contained in this Constitution in respect of a particular event does not preclude that party from subsequently making further claims under that indemnity in respect of any further loss arising out of the same event for which it has not previously been indemnified.

26.10 Payments

- (a) Money payable by the Responsible Entity to a Member may be paid in any manner the Responsible Entity decides.

 - (ii) any amount owed or payable by the Member to the Responsible Entity or any other person,

which the Responsible Entity is required or authorised to deduct in respect of that payment or receipt by law, by this Constitution (including, without limitation, clause 22), or by any disclosure document for the Project the terms of which are binding on the Member, or which the Responsible Entity considers should be deducted.

- (c) Each Member must pay to the Responsible Entity on demand any amount owing by the Member under any provision of this Constitution.
- (d) The Responsible Entity may require each Member to nominate an account with a Financial Institution from which amounts payable under this Constitution may be deducted by direct debit, and the Member must ensure that sufficient funds are available in such account to meet such deductions.

Clauses 26.11(b) to (d) do not apply to supplies in respect of which the relevant fees are expressed as GST inclusive in this Constitution, a Lease or a Management Agreement.
- (c) In relation to any fee that is expressed as GST inclusive in this Constitution, a Lease or a Management Agreement, in the event of an increase in the rate of GST, the new GST inclusive fee is determined by converting the existing GST inclusive fee to a GST exclusive figure (based on the GST rate immediately prior to the new prevailing GST rate) and multiplying it by (1 + n) where "n" is the new prevailing rate of GST (expressed as a decimal).
- (d) In the event that the Responsible Entity is not entitled to an input tax credit in respect of the amount of any GST charged or recovered from the Responsible Entity by any person, or payable by the Responsible Entity by way of reimbursement of GST referable directly or indirectly to any supply made under or in connection with this Constitution, a Lease or a Management Agreement, the Responsible Entity is entitled to recover out of Project Property or from Members by way of reimbursement an additional amount equivalent to the amount of such input tax.

- (a) The Responsible Entity may from time to time and in its absolute discretion, classify all of the Land into one of the following categories:

 - (ii) Continued Area.
- (b) The Responsible Entity may, in its absolute discretion:
- (i) re-classify land from the Continued Area to the Excluded Area;
 - (ii) reduce the size of Continued Area for any reason, including:

 - (iii) adjust the size of each Woodlot (and each Interest) that such Woodlot (and Interest) represents as a proportion of the Continued Area.

27.2 Consequences of classification

- (a) Each Member acknowledges and agrees that subject to the terms of this Constitution, the Member will hold a Proportional Interest in the Project.

(b) Each Member that holds a Woodlot referable to Land that has been classified as Excluded Area acknowledges and agrees that, in addition to the amendments referred to in clause 27.3(a), the Responsible Entity will, pursuant to the Power of Attorney, amend the Lease (to the extent not already terminated) to remove any Woodlot from the Lease that is referable to Land that has been classified as Excluded Area.

(c) In addition, where:

(i) any area of the Continued Area is wholly or partially destroyed or damaged to an extent that the Responsible Entity determines that there is unlikely to be any viable Trees on that land; or

(ii) the Responsible Entity determines, in its absolute discretion, that it would be uneconomic for the Project as a whole to continue maintaining the Trees on that land to harvest.

(in each case, the **Removed Woodlots**).

(iii) take whatever action it considers necessary or desirable to ensure that each Member retains its Proportional Interest in the Project;

27.3 Project Agreements

The Responsible Entity must (including by exercising its powers under the Power of Attorney):

(a) from the Operative Date (as such term is defined in the Implementation Deed), cause the Lease to be amended to reflect clauses 4(i), (k), (o) and the Schedule to the Lease as set out in Schedule 2 to this Constitution;

(b) immediately following the Novation Effective Date (as such term is defined in the Deed of Novation and Surrender), cause the remaining provisions of each Lease to be amended in the manner set out in Schedule 2 to this Constitution;

(c) as required from time to time, amend each Lease as required by clause 27.2(b);

(d) from the Operative Date (as such term is defined in the Implementation Deed), cause each Management Agreement to be amended so that each Management Agreement is in the form set out in Schedule 3 (including to replace the “manager” with the Responsible Entity);

(f) following the Appointment Date, procure that the Members enter into the Forestry Management and Off-Take Agreement;

(g) take all action it considers necessary or desirable to disclaim and surrender (including for no value) any scheme property (including, without limitation, leasehold interests, forestry rights or profit a prendre) in connection with the Excluded Area, including, under the Power of Attorney, disclaiming any assets, rights or interests of a Member in connection with the Excluded Area; and

(h) enter into, terminate, disclaim or make any addition, variation, amendment or modification to any document or otherwise take any step, to give effect to the matters set out in this clause 27.

28 Power of Attorney

- (a) Each Member, subject to paragraph 28(b), to the maximum extent permitted by law irrevocably appoints the Responsible Entity (and its delegates) from time to time, and each Director and Company Secretary from time to time of the Responsible Entity (and its delegates) to be the agent and attorney of the Member, in the Member's name, on the Member's behalf and as the Member's act and deed, to exercise the powers and do any thing and take any action set out in Schedule 6 to this Constitution on the terms set out in that Schedule.
- (b) The Responsible Entity from time to time, may recover all costs properly incurred in it (or its delegates) exercising powers under paragraph 28(a) (including all legal and litigation costs and costs associated with the preparation of any reports for the purposes of taking the action) from the Project Property. The Responsible Entity's right of indemnity under this clause applies only in relation to the proper performance of its duties and is without limitation to any other right of indemnity under this Constitution or at law.
- (c) The Member undertakes to ratify all that the attorney lawfully does or causes to be done under the Power of Attorney.
- (d) The powers granted by paragraph 28(a) are without prejudice to any power of attorney given to the Responsible Entity by a Member upon submitting an application for interests in the Project or upon becoming a Member as an assignee or member by succession (**Original Power**) and the acts and things which the Responsible Entity may do and take under the powers granted in paragraph 28(a) are in addition to the acts and things which the Responsible Entity from time to time is empowered to do or take pursuant to any Original Power.
- (e) The Member acknowledges and agrees that the Original Power and the powers granted by paragraph 28(a) are rights of the Responsible Entity in relation to the Project for the purposes of section 601FS(1) of the Corporations Law.

- (a) The Responsible Entity may from time to time determine that this clause 29 will apply to the Trust and, if it applies, that it will cease to apply.
- (b) If the Responsible Entity determines that this clause 29 will cease to apply then:
- (i) it will continue to apply to all Security Interests noted on the Register at the time of that determination; and
- (ii) the Responsible Entity must not accept any further notices under this clause 29 after the time of that determination.

29.2 Form of notice

The Responsible Entity may from time to time determine the form of notice which:

- (a) a Member or their duly appointed agent must give in order for a Security Interest to be noted on the Register in respect of any Interests; and
- (b) a Security Interest Holder must give in order for a Security Interest to be removed from the Register.

29.3 Entry of Security Interest on the Register

- (a) If a Member or their duly appointed agent gives the Responsible Entity a notice of the kind referred to in clause 29.2(a), the Responsible Entity must cause a note of the Security Interest Holder's interest to be recorded in the Register in respect of the relevant Interests.

- (b) The Responsible Entity is not taken to be bound by, or obliged to enquire into, the terms of any Security Interest of which it has notice.

29.4 Removal of Security Interest from the Register

If the interest of a Security Interest Holder is noted on the Register in respect of an Interest, the Responsible Entity must not give effect to a payment direction (other than to the Security Interest Holder), transfer or redemption or other dealing in respect of the Interest without the written consent of the Security Interest Holder.

29.5 Rights attaching to Units in respect of which a Security Interest is recorded

Subject to the Corporations Act, while a Security Interest remains entered on the Register:

- (a) if the Responsible Entity receives a direction (in such form as the Responsible Entity determines) signed by the Member or their duly appointed agent to the effect that it must pay to the Security Interest Holder any or all amounts payable to the Member (after any deductions permitted by this Constitution) whether on redemption, cancellation, winding up or otherwise and whether of capital or income, which would in the absence of such direction have been made or paid to the relevant Member, the Responsible Entity may act on that direction until it is revoked by the Member or their duly appointed agent with the written consent of the Security Interest Holder;
- (b) when acting in good faith, the Responsible Entity is not liable either to the Member or to the Security Interest Holder if a payment made to the Member or Security Interest Holder is not in accordance with this clause 29;

- (d) if the Responsible Entity becomes aware that a dispute has arisen between a Member and a Security Interest Holder as to any right to a payment relating to Interests in respect of which the Security Interest is noted on the Register, the Responsible Entity may at its option:
- (i) pay the disputed amount to the Security Interest Holder; or
- (ii) pay the disputed amount into any court in which proceedings in relation to the dispute are to be conducted,

30.3 Background

- (a) The Growers, the Responsible Entity, the Deed Administrators, the Receivers and Financiers disagree over their respective rights in connection with the Scheme and the Land.

- (b) the Receivers have the discretion as to which Option to proceed with;
- (c) once an Option is selected by the Receivers, the Responsible Entity and the Growers will be bound to proceed with the Selected Option; and
- (d) if the Sale Option is the Selected Option, the Land is to be sold free of any MIS Interests.

30.5 Authorisation of, and consent and direction to, the Responsible Entity

The Growers authorise the Responsible Entity, and consent and direct the Responsible Entity, to take such action and steps, execute or issue such documents as are in its reasonable opinion necessary or desirable to give effect to the Proposal, perform its obligations under such documents and to implement the Selected Option, including:

- (a) executing and delivering the Releases, the RE Power of Attorney and the Property Documents; and
- (b) if the Sale Option is the Selected Option, as the Land is to be sold free of any MIS Interests the Responsible Entity or its delegate is to execute the Property Documents on its own behalf and in its capacity as responsible entity of the Scheme and as agent or attorney on behalf of each of the Growers (including pursuant to the Power of Attorney).

30.6 Payment

- (a) If the Restructure Option is the Selected Option, the Responsible Entity and each of the Growers agree that:
 - (i) no payment is to be made to the Responsible Entity or the Growers in connection with the implementation of the Restructure Option, including in respect of the sale of the Land or execution of the Property Documents; and
 - (ii) the Scheme will continue in accordance with the provisions of this Constitution.
- (b) If the Sale Option is the Selected Option, the Responsible Entity and each of the Growers agree that:
 - (i) in connection with the sale of the Land, the entitlement of the Responsible Entity and the Growers is limited to the Scheme Sale Proceeds and they will not make any Claim other than in respect of the Scheme Sale Proceeds;
 - (ii) the Scheme Sale Proceeds are being paid in full and final satisfaction of all Claims, and neither the Responsible Entity nor any Grower will be entitled to any further or other payment, from the Total Sale Proceeds or in connection with the Land;
 - (iii) the Responsible Entity and the Growers agree that they will not interfere in the sale of the Land in connection with the Sale Option; and

(iv) the Scheme will be wound up.

30.7 Releases and Claims

(a) The Responsible Entity and the Growers acknowledge that:

(i) the Growers have agreed to settle all of the Grower Claims and the Growers hereby authorise and direct the Responsible Entity to provide a Release of the Grower Claims, and to execute and deliver as agent or attorney on behalf of each Grower any documents necessary or desirable for that purpose; and

(ii) the Responsible Entity has agreed to settle all of the Responsible Entity Claims and has provided a Release of the Responsible Entity Claims in accordance with the terms of the Implementation Deed.

Except as otherwise expressly provided in this agreement a party may give or withhold its consent to, or approval of, any matter referred to in this agreement in its absolute discretion. (a) If a dispute arises out of, or relates to, this agreement, or the breach, termination, validity of this agreement, or as to any claim in tort, in equity or pursuant to any domestic or international statute or law (**Dispute**), the party alleging the Dispute shall give the other party notice (**Dispute Notice**) setting out brief details of the Dispute.

(b) Upon receipt of a Dispute Notice, the parties shall endeavour to resolve the matter amicably.

- (d) Despite the existence of a Dispute, each party must continue to perform its obligations under this agreement.
- (e) Each party to a Dispute must bear its own costs in connection with this dispute resolution procedure, unless otherwise agreed or determined.
- (f) Nothing in this clause prevents a party from exercising any right or remedy under this agreement or seeking urgent injunctive, interlocutory or declaratory relief in respect of a Dispute, to preserve property or rights or to avoid any losses, costs, charges, claims liabilities or expenses which are not compensable in damages.

17.6 Execution

This agreement may be executed in counterparts which may be exchanged by facsimile or in PDF format by electronic transmission. All executed counterparts taken together constitute one and the same agreement, and any party (including any duly authorised representative of a party) may enter into this agreement by executing a counterpart. - (b) except as otherwise expressly provided by this agreement, are cumulative and not exclusive of rights and remedies provided by law; and
- (c) may be waived only in writing and specifically,

and delay in exercising or non-exercise of any such right is not a waiver of that right.

17.8 Further assurance

Each party undertakes at all times from the date of this agreement, at the request, cost and expense of any other party, to sign all documents and do all other acts, which may be necessary to give full effect to this agreement.

17.9 Severability

The provisions contained in each clause of this agreement are enforceable independently of each other clause of this agreement and the validity and enforceability of any clause of this agreement will not be affected by the invalidity or unenforceability of any other clause.

If any party fails to pay any amount payable by it under or in accordance with this agreement, that party must pay simple interest on that amount from the due date for payment until that amount is paid in full at the Default Rate per annum, calculated daily.
